

# COVID Champion Video Script

## English

Hi. My name is [First Name] and I am excited to share some important Covid Vaccine information with friends, family, and neighbors. It is important to know that the COVID-19 vaccines are safe and effective. Having side effects – or flu like symptoms for a day or two – is normal and means the vaccine is teaching your body how to fight the virus. You CANNOT get COVID from the vaccine. Protect yourself. Protect your loved ones. Get vaccinated.
