

COVID-19 Vaccines. Get the Facts.

Stay safe after being vaccinated.

Protect your community.

Short Version

You are not fully protected from COVID-19 until two weeks after your last shot.

Stay safe after being vaccinated:

- Wear a mask.
- Practice social distancing.
- Avoid gatherings with many people.
- Wash your hands frequently.
- Disinfect high-touch areas.
- Avoid unnecessary travel.

Two weeks after you have been FULLY vaccinated, YOU CAN:

- Be indoors with others who have been **fully vaccinated** without wearing a mask.
- Be indoors with others from **one other home** who have **not been vaccinated** without wearing a mask.

However, avoid visiting people who are at a **high risk of getting seriously ill** from COVID-19. **If you must visit them, wear a mask, stay 6 feet / 2 meters away and wash your hands.**

Even if you are fully vaccinated, get tested for COVID-19 right away if:

- You have been **around someone with COVID-19 and start to feel ill.** Also stay home and away from others.
- You **live with many people** and have been **around someone with COVID-19. Even if you do not feel ill, get tested.** Also stay home and away from others.

Be safe while traveling – protect yourself and others by:

- Wearing a mask over your nose and mouth when in public.
- Avoiding crowds and stay at least 6 feet/2 meters from anyone you did not travel with.
- Washing your hands often
