

# GET THE FACTS.

STAY SAFE AFTER BEING VACCINATED.  
PROTECT YOUR COMMUNITY.

You are not fully protected from COVID-19 until **two weeks** after your last shot!

- If you got the **two-shot vaccine**, you must wait **2 weeks** after your second shot.
- If you got the vaccine that only needs **one shot**, you must wait **2 weeks** after your shot.

## STAY SAFE AFTER BEING VACCINATED

Experts don't know how long the vaccine will protect you from COVID-19 or if you can still spread COVID-19 to others after being vaccinated. Even after getting the vaccine, continue to:

Wear a mask.

Practice social distancing.

Avoid gatherings with many people.

Wash your hands frequently.

Disinfect high-touch areas.

Even if you are fully vaccinated, get tested for COVID-19 right away if:

You have been around **someone with COVID-19** and start to feel ill. Also stay home and away from others.

You **live with many people** and have been around **someone with COVID-19**. Even if you do not feel ill, **get tested**. Also stay home and away from others.
