**Now that we have the
vaccine, it is safe to visit them,
and I can finally hug them.
We miss them so much!**

- ZANE

I hate shots, but I know this vaccine helps me and my family stop this bad virus! I was so happy when I finally got it. We are going to visit our elderly grandparents in the Middle East, and I haven't seen them in a long time. We want to keep them healthy and happy, so we got the vaccine to help protect them.

Now that we have the vaccine, it is safe to visit them, and I can finally hug them. We miss them so much!
