

# Sexual and Reproductive Health Glossary

FOR AFGHAN NEWCOMERS

## Sexual and Reproductive Health for Afghans

Created in partnership with the International Rescue Committee, the SRH glossary will help interpretation and translation companies, public health departments, and medical providers ensure culturally and linguistically appropriate translations of sexual and reproductive health terms. Features include:

- **Words and definitions in English** that serve as a reference to ensure cross-cultural understanding of the terminology
- **Rigorously translated and culturally validated** terms in Dari and Pashto
- **Colloquial expression reference** to complement medical terminology, ensuring cultural and linguistic relevance
- **High-contrast design** is easy to print in black and white or color
