Pre-Travel Attestation

Under Uniting for Ukraine (U4U), you must complete a pre-travel vaccine attestation before being granted parole. You will need to complete another attestation within 90-days after arrival to the U.S. **This document provides important information related to the pre-travel attestation.**

Measles Vaccine

- ✓ All individuals 12 months and older must complete at least one dose of the Measles vaccine.

COVID-19 Vaccine

- ✓ Everyone six months and older must complete at least one dose of a COVID-19 vaccine pre-travel.
- ✓ This vaccine must be approved by the U.S. Food and Drug Administration (FDA) or the World Health Organization Emergency Use Listing (WHO EUL).
- ✓ All individuals must attest that they will complete the recommended primary vaccine series upon arrival to the U.S.

Polio Vaccine

- ✓ All individuals 6 weeks and older must complete the Polio vaccine.
- ✓ Some exceptions may apply:
 - If the individual is younger than 6 weeks old
 - If the vaccine is not approved or licensed for the individual's age group
 - If the individual qualified for a medical exception

** Some exceptions may apply to these health requirements. Please see the [USCIS U4U Vaccine Attestation page](#) for more information ([English](#), [Russian](#), [Ukrainian](#)).*

Where can parolees make their attestation?

Within 90 days of arrival in the U.S., parolees must complete their attestation in their [USCIS online account](#).

Not completing the health requirements of U4U, could put your parole, and any future application for asylum or any other immigration benefit at risk, including possible termination of parole.

It is important to ask your doctor for a copy of your health record and to keep your record in a safe place.
